SUMMARY

Klaviyo-certified email marketer who runs the whole program: flows, segmentation, campaigns, conversion copy, and the sending infrastructure underneath. Ran email end to end for a direct-to-consumer Shopify brand, growing its list to 375 subscribers with no ad spend, and built a platform that runs lifecycle email for multiple client brands from one system. Certified in Klaviyo Practitioner, Strategist, and Deliverability.

EXPERIENCE

Co-Founder, Growth and Product

myReturners · Aug 2026 to Present

- Co-founded a multi-tenant retention platform for independent coffee shops and built the entire product. Live in production since August 2026 at myreturners.com.
- Run email for multiple client brands out of one system, each with its own branding, audience, segments, and authenticated sending domain.
- Handle campaign setup, QA, and deployment end to end, then read performance back into the next send. Built the operator console that flags accounts trending toward churn, plus the reporting each client sees.
- Own 14 automated flows across welcome, loyalty milestones, review invites, win-back, birthday, and monthly reporting, with behavioral segmentation and personalization on every send.
- Keep every brand compliant and deliverable: consent capture at signup, one-click unsubscribe, central suppression, per-contact frequency caps, and automated alerting against 2% bounce and 0.1% complaint thresholds.

Founder

Aurean, DTC jewelry brand · Mar 2026 to Aug 2026

- Grew a pre-launch email list from zero to 375 subscribers with no ad spend and no existing audience.
- Wrote and placed the organic content that built it: 200,000+ views across Reddit and Facebook communities, including a single post that reached 120,000+.
- Wrote and sent 17 campaigns to 6,089 recipients, averaging a 45% open rate and 3.2% click rate, with a top performer at 53% opens and 6.7% clicks.
- Architected 10 Klaviyo lifecycle flows: welcome, checkout and browse abandonment, post-purchase, and review requests, with behavioral segmentation.
- Built the Shopify storefront in Liquid, wrote every product page, directed all photography, and ran fulfillment, support, and returns in house.

Founding Director of Marketing and Growth

MedSpeak AI · Jun 2025 to Feb 2026

- Founding team member at an AI voice assistant startup for medical practices. Led marketing, growth, and brand from launch.
- Built the go-to-market motion: positioning, launch copy, promotional video, and the first content presence on LinkedIn, Instagram, and email.
- Ran outreach to med spas, dental practices, and clinics, testing messaging directly with decision makers.

Founder and Operator

Relocashion, e-commerce resale · Jan 2021 to Present

- Founded and operate a vintage resale business across eBay, Depop, and Facebook Marketplace. 15,000+ pieces sourced, photographed, and listed with distinct positioning per platform.
- Five years of continuous profitable operation through platform algorithm and fee changes. Ran the largest booth at Indiana University's BYOB business showcase.
