SUMMARY

Copywriter and content strategist who writes every surface a brand touches: social, short-form video scripts, email, ads, and product pages. Built a direct-to-consumer brand's entire voice from scratch and wrote the organic content that pulled 200,000+ views with no ad spend and no existing audience.

EXPERIENCE

Founder

Aurean, DTC jewelry brand · Mar 2026 to Aug 2026

- Wrote every word the brand published: 17 email campaigns, every product page, all social and community content, and the scripts behind the launch videos.
- Wrote and placed the organic content that built the audience: 200,000+ views across Reddit and Facebook communities, including a single post that reached 120,000+, with no ad spend and no existing following.
- Built the brand voice from zero, including naming, positioning, and the product naming architecture, then held it consistent across email, social, and storefront.
- Wrote and produced short-form video: hooks, scripts, and shot lists built around retention, with a second hook placed at 6 to 10 seconds to hold viewers past the early drop-off.
- Campaign copy averaged a 45% open rate and 3.2% click rate across 6,089 sends, with a top performer at 53% opens and a survey campaign at 11.3% clicks.
